

Being a Political Dissident to the Church, the Media, Psychiatry and the State Part 2

Other parts of being a political dissident are when you are stripped of rights you may have a pen and some paper on hand. Write out a One Time Pad:

a=3randomnumber-z=3randomnumber same with 0-10 789 for space

Once you have your pad you can encode as numbers 333,145,963.389

Another Thing is to store numbers as - = 5 | =1 , and * While on the streets use a Flash Drive.

Encryption can be done without a computer. So if you are left with a colored pencil use it.

People who are under psychiatric reprisal have to compete with the system.

When you are in there limit meals, eat less than the rest, (remember they over feed you in psychiatry), Drink your own urine as well. Drink plenty of water from the faucet. They force you but it is better than the juice crap. Institutional settings are designed to mistreat the mentally ill.

All people in the profession of psychiatry are condescending and verbally abusive.

Psychiatry even rapes it's own patients in Australia. Pentagon = 0.95364808*CD

One thing is for sure you must use some form of encoding or encryption.

Archive.org – Search – Ascii Encoder

ISOCHRONIC TONES 4 HZ ALSO

This zip file can be save to a flash drive and opened in a web browser Internet Explorer, Microsoft Edge, Pale Moon, Mozilla Firefox, Midori, Google Chrome, Brave, Chromium.

You can encode and decode ascii built in linux BSD/FREEBSD ALSO WORKS

echo 'your data' | base64 echo " | base64 –decode two hyphens.

The rich don't work for money, You do not need to work a 9-5 Job, The rat race is over, sell shit and advertise, do whatever to make your own money. Rich Dad Poor Dad says a lot about this. Being self employed is a lot better. You can be either rich or poor and live decently when you are self employed or making money doing something else besides a job. You can make more money than a shitty 9-5 job. But fuck the protestant work ethic anyways.

You see the sheeple do not fast and stop eating for a day and repeat/alternate at least. They do not drink distilled alkaline water or urine. They do not Drink Baking Soda (sodium bicarbonate), grapefruit seed extract 20 drops, Citricare 20 drops, lemons squeezed in distilled water, 1 tsp activated charcoal/blue green algae/wheat grass in water. The cheaper it is the better. Even Auto Urine therapy is excellent. Moderate the alcohol and smoke more of the other drugs that are less strong. Cannabis is safer than alcohol. Proven Fact. No one has ever died from pot ever. You know you want to break all these unconstitutional laws.

In the United States there are these ISP's (WIFI's) that are called xfinitywifi/cablewifi

I will show you theft of service or stealing an ISP, clone the mac addresses in Linux 001122334400 aabbccddeeff ffffffff 5a5a5a5a5a5a 666666666666

Seriously if you can just do mac cloning with wifi you have committed your first good crime. Theft of service. You are now a political dissident. Make sure your are using linux as Live though (ram disk only on USB/DVD/CD). YOU CAN ALSO dd if=/dev/sdb of=/dev/sda bs=4M to the SSD/HD You can get drugs from black markets. The good stuff is Ketamine, MDA, MDMA, LSD, LSA, and Cannabis, For beatnicks you have Salvia and Yohimbe as 1 TSP. Mescaline and Shrooms also.

You can forget about all of these sheep. Society is bull. We use up more electricity just to make it. Death to pigs. SDS and PMB of the 60's were better than the eras of today. Real movements were disrupted by MKULTRA/Artichoke and the CIA/Intelligence Agencies.

I just reject the system. Go against religion, Fornicate, Masturbate, Blaspheme, realize it. Do what tough wilt shall be the whole of the law. When you can steal anything digital to make it easier and buy plenty of drugs that are safer than alcohol plus make you trip for more than an hour. It is the way to go. Hallucinations and trips show us a side of mindset that we are fucked by the government and the system it opens up our third eye and makes us see the real mediocrity and banality of that “slave” working in a manner that pays the most taxes, yet the self employed pay the least taxes and make the most money, when you have a niche you can “reclaim your mind”. You don't need to listen to the MSM that is controlled by the Banksters/and 6 other Companies. ET AL.....
